1000 BOOKS
BEFORE KINDERGARTEN

Color in one circle every time you read a book together.   NAME_____

1000 BOOKS
BEFORE KINDERGARTEN

How can I possibly read 1000 Books?

A newborn baby has about 2000 days until the first day of kindergarten. But it doesn't have to take five years. If you read three books each night, you'll be able to read 1000 books in less than one year!

Your child will be rewarded for reading!

Read your first 100 books and you win a book bag! Then you will continue to claim fun rewards along the way. Come back to the Library after completing 300, 500, 700 and 1000 to win more fun prizes.

Who can participate?

Any child age six and under who isn't in kindergarten can join.

How do I get started?

Track your child's reading progress using our new reading program site, Beanstack. Register yourself and your child for the website by filling out some basic information, and then you can sign up for Wichita Public Library programs including 1000 Books Before Kindergarten.

DOWNLOAD THE MOBILE APP!
Download the free Beanstack app to track your child's progress from your Apple or Android mobile device.
