

Do your students have library eCards?

Teachers! Your Wichita Public Library gave students in USD 259 permission to opt-in for a library eCard at enrollment, giving them access to incredible digital resources!

Wichita Public Library eCards are like our regular cards - except they can't be used to borrow physical materials from the library. They can be used to access eBooks, audiobooks, research databases, public computers, printing, WiFi and more!

Want to see if your students have eCards? See who opted in through by following the instructions at this site:
