

# Useful Databases for Students

**Online research databases** are free for customers to use. Most are available outside of a physical library location. You must have a Wichita Public Library card for access.

## Explora

A simple search that delivers articles and essays.

## Explora Educator's Edition

Allows teachers and librarians to easily find support materials.

## Explora Elementary Schools

A version of the Explora database with resources for elementary age kids.

## Explora Middle Schools

A version of the Explora database with resources for grades 6-8.

## Explora High Schools

A version of the Explora database with resources for grades 9-12.

## CQ Researcher

Provides in-depth coverage of current issues.

## The Mailbox

An activity resource for teachers featuring worksheets, activities and more.

## Mango

Learn a new language online at your own pace.

## Scholastic BookFlix

Pairs animated stories with best-selling nonfiction e-books for an interactive reading experience.

## Today's Science

Bridges the gap between the science taught in class and real-world discoveries by leading scientists.

## World Almanac for Kids

Resources for student reports, including articles, videos, interactives and more.

## World Almanac for Kids Elementary

Provides trustworthy, kid-friendly resources for elementary grades.
